Scope of Work Full Solution (High-Density)
Conference Rooms, Private
Offices

Finishes Painted Chromocoat, Glass,
Wood Veneer

The Project

This rapidly growing capital management firm was seeking to update their office, a visually pleasing mix of open and private spaces including a modern cafe and huddle rooms to discuss confidential client matters.

The Solution

As an organization that prides itself on aesthetic, the DIRTT platform was able to accommodate their existing look by taking it to the next level. Glass walls and wood veneer panels give the space an upscale and collaborative look and feel.
