TUNGSTEN NETWORK  
FAST, SECURE, ACCURATE  
DIGITAL AUTOMATION

## Case Study

# Tungsten Network

Tungsten Network opened their second USA branch in Toledo, Ohio and hired Continental Office to provide furniture and floors as well as to create a branded environment that can be replicated in all of their locations throughout the world.

### Results:

A floor-to-ceiling logo identity wall, a large-scale infographic, and branded marketing messages were incorporated into the space. In addition, brand colors and textural wallcoverings were used to highlight unique architectural elements of the downtown landmark building.
