

Case Study

# Gahanna Lincoln High School - Clark Hall

**Gahanna, Ohio - Not all classrooms are the same. And neither should the approach be to creating them. Gahanna Lincoln High School - Clark Hall is a 21st century learning environment that moves from the traditional classroom to one that is open and collaborative. By challenging this traditional mindset, we found the right mix of functional furniture and the best creative configuration to support this shift in K-12 learning.**

## Results

- Delivered a one-of-a-kind learning environment for students and staff
- Added product that easily integrates technology
- Crafted a variety of collaborative and independent spaces
- Developed the space with the learner in mind as compared to traditional lecture-based designs
